

**Administrative Professional Staff Council**

**Chairperson's Final Report**

**Donald Castle**

May 20, 2009

This year turned into a very busy and interesting year for me as Chair of the A/P Staff Council. I participated in many different types of meetings and discussions involving all levels of the university and our constituency group. Some of the more serious issues included Chancellor's Search Process, Plagiarism Policy Review, Sexual Harassment Policy Review, and Enrollment Management Issues. I was invited and attended more meetings than I had anticipated at the beginning of my term. Chancellor Goldman revitalized the Monthly Constituency Head meetings which were nonexistent during Chancellor Trevino's term. President Poshard sought input from Constituency Heads on several issues including the Plagiarism Policy, Enrollment Management, Chancellor's Search and Interim Administrators title issues. The A/P Council participated well in these discussions and it was a pleasure to represent what the A/P Council and the entire Constituency had to say on these matters.

Meetings attended

The Administrative Professional Staff Council, Chairperson	13
A/P Council Expanded Executive, Chairperson	12
