

**Report to the A/P Staff Council
September 16, 2009**

Naming University Facilities Committee

Submitted by Sarah Merideth

The committee considered and approved a request to name Group Study Room 580A on the fifth floor of Morris Library the Dr. Charles W. and Mary M. Roe Group Study Room. This was an honorific naming request.

The committee received a request for renaming an auditorium on campus. No action was taken because renaming is outside the guidelines of the committee.

The committee received and approved a request to name the circle drive in front of the SIUC Student Center the Seymour L. Bryson Circle Drive. The request was received from a campus-wide committee that was constituted to honor Dr. Bryson's accomplishments at the time of his retirement.

A request for an honorific naming of an auditorium on campus was rejected because of lack of support from building occupants and because of the perceived potential for attracting a donor naming opportunity.

The committee received and approved a request to name the Administrative Conference Room in the SIUC Student Health Center the Dr. Terence D. Buck Conference Room.

Requests approved by this committee are forwarded as recommendations to the Chancellor.

My term on this committee ended recently. Thank you for the opportunity to have represented A/P staff in this capacity.
