[New wording underlined]

Operating Paper of the A/P Staff Council

II.B. Composition

Each of the sectors shall be entitled to one representative to the Council for each fifty (50) or majority fraction of fifty members of its constituency or a minimum of three (3) representatives, whichever is greater. The number of members of each sector's constituents will be determined by January 31 of the current year from the appointment records of the university.

Rationale:

To reduce the burden on any sector in providing representation to sub-committees and/or other Council affairs. For example: To avoid the necessity of any one representative having to serve on more than two subcommittees.
